ShareGift

Shareholders who only have a small number of shares which are uneconomic to sell, may wish to consider donating them to the UK charity ShareGift (Registered Charity 1052686) which specialises in accepting such shares as donations. ShareGift amalgamates these holdings, sells them, and this creates a pool of funds to donate to charities covering a vast area of local, national and international work. The relevant stock transfer form may be obtained from Computershare Investor Services PLC (see details above) or directly from ShareGift. Further information about ShareGift may be obtained from www.ShareGift.org or by telephoning them on +44 (0) 207 930 37 37.
