CHAIRMAN & CEO’S LETTER
A message from Dirk Van de Put

Successful companies do more than focus on financial results – they create value for the world at large and improve the lives of those they impact. At Mondelēz International, we are guided by our purpose to empower people to snack right by providing the right snack, for the right moment, made the right way.

As the world deals with a global pandemic, that purpose feels more important today than ever. It drives us to prioritize the health and safety of our colleagues, while continuing to provide the sustenance and moments of enjoyment that consumers need.

While many things have changed due to COVID-19, the issues we are tackling and the opportunities we are pursuing remain the same. In fact, there is an even greater need to accelerate our progress. We have long believed in using our global scale to create meaningful, lasting impact, and as you read our 2019 Snacking Made Right Report, I hope you agree we’ve continued to make significant progress to drive positive change, including:

- We delivered all of our 2020 environmental reduction goals on CO2, water and waste ahead of schedule
- Waste providing $87 million in cost savings in 2019 and we eliminated –65,000 tons of packaging
- We sourced –63% of the volume of cocoa needed for our global chocolate brands through the Cocoa Life program, an increase of 20 points vs. 2018
- Within our product portfolio, our offering of portion control options for consumers increased to 16% of our snacks net revenues, ahead of our 15% goal for 2020
- And our Mondelēz International Foundation allocated 100% of its $50 million commitment to community healthy lifestyle programs

We are proud of what we accomplished last year. We’re fulfilling our mission – to lead the future of snacking – by continuing to align our actions to the goals set out in our 2025 Snacking Made Right strategy. These goals, rooted in our purpose, mission and values, include:

- Creating a sustainable supply chain of key ingredients
  – Scaling sustainable sourcing program Cocoa Life to 100% of cocoa volume for our chocolate brands by 2025
- Addressing climate change and reducing our end-to-end environmental impact
  – 10% reduction in CO2 emissions by 2025 vs 2018 baseline with a focus on protecting and restoring forests through our signature sustainable sourcing programs
- Advancing zero net waste
  – 100% packaging recyclable and labeled with recycling information by 2025 with a focus on tackling plastic waste
  – 15% reduction in food waste in manufacturing and 50% reduction in food waste from distribution
- Respecting the rights of everyone across our value chain
  – 100% CLMRS coverage of Cocoa Life communities in West Africa by 2025

As we look to build an even stronger business, we will continue to support and empower colleagues, consumers, suppliers, and customers around the world. Now is the time for companies to do what’s right. I am confident that our approach to sustainability, well-being and how we do business helps to create a better future.
