From Farm & Field to You

Our 2020 Sustainability Goals in Action

Our 2020 Sustainability Goals focus our efforts on areas where we can have the greatest impact and deliver meaningful change: on the farm where our ingredients are grown and in our manufacturing facilities where our snacks are made and packaged.

### On the Farm

Working with farmers to implement best practices and support smallholder livelihoods

**Cocoa Life** farmers learn to avoid deforestation and plant native shade trees making farms more resilient to climate change

**Harmony** farmers use precision technology to optimize water use and limit fertilizer and pesticide use

All cocoa will ultimately be sustainably-sourced

### In the Factory

Our environmental footprint targets are science-based to help limit climate change to less than 2°C

Reduce absolute CO₂ emissions by 15%*, eliminating 240,000 tonnes per year

Use recycled paper or paper from verified non-deforested sources in our packaging

Eliminate 65,000 tonnes* of packaging material - so there’s less for you to dispose of

Reduce water use by 10%* at priority locations where water is most scarce saving 380 million litres per year

Reduce manufacturing waste by 20%*

### For You

Great tasting products from the world’s leading snack company

*by 2020 vs. 2013 baseline
